

## **NEW RELEASE MY22**

*Descriptions and advantages*

Always synonymous with excellence, Vittorazi Motors just launched two incredible updates on the market this year: the best seller **Moster185** and the **Atom80**. The newly released engines are ready, the **MY22**.

Thanks to a rigorous and constant internal quality control, based on aerospace standards, production and supply chain 100% based-in-Italy, high repeatability of the performances and the superior durability of the products, Vittorazi's engines stand at the Top for evolution, performance and longevity.

Furthermore, with regard to the evolution of its engines, Vittorazi has always paid a great deal of attention to compatibility aspects with the previous versions and this, combined with the ease of intervention and maintenance of its engines and the large availability of original spare parts for over 10 years, ensures an effective and attentive service to the needs of its tens of thousands of pilots worldwide. Discover more in the next pages.

<b>Starting system</b>			
<b>N.</b>	<b>Description</b>	<b>Advantage</b>	<b>Engine model</b>
1	Starter spacers with captive screws	Increased system safety during maintenance	MOSTER185PLUS MOSTER185PLUS DUAL FACTORY-R
2	Starter pin center screw, increased to 8mm	Increased resistance to strong acceleration and impact	MOSTER185PLUS MOSTER185PLUS DUAL FACTORY-R
3	Reinforced starter stud tip	Increased resistance to strong acceleration and impact	MOSTER185PLUS MOSTER185PLUS DUAL FACTORY-R ATOM80
4	Starter motor support plate with O-ring as damper	Higher accuracy, lower noise, longer system life	MOSTER185PLUS DUAL

<b>Silencer system</b>			
<b>N.</b>	<b>Description</b>	<b>Advantage</b>	<b>Engine model</b>
5	Reinforced silencer band, with grommet and fixing bushing	Increased system durability and safety during maintenance	MOSTER185PLUS MOSTER185PLUS DUAL
6	Internal silencer mesh with increased thickness	Increased resistance to strong acceleration and impact	MOSTER185PLUS MOSTER185PLUS DUAL FACTORY-R
7	Silencer gasket, new shape	Increased system durability and safety during maintenance	MOSTER185PLUS MOSTER185PLUS DUAL FACTORY-R
8	Added an O-ring gasket to the inner bulkhead of the silencer	Increased durability of the soundproofing material; no discoloration of the silencer; reduced vibrations of the end cap.	ATOM80
